HYPEACH

MAY 28TH, 2025

A NEW ERA

FEEL GOOD. DO GOOD. CALIFORNIA FRESH

Materials matter, and so do certifications. That's why our fabrics are carefully chosen to reduce environmental impact without compromising quality or style. Many of our pieces are crafted using certified recycled, organic, renewable, or responsibly sourced textiles. Our materials proudly meet standards such as the Better Cotton Initiative (BCI), OEKO-TEX®, and the Global Recycled Standard (GRS) — because accountability isn't optional, it's essential. We also put our money where our mission is. As official environmental partners of 1% for the Planet, we donate 1% of our annual revenue to vetted environmental causes. That means every time you shop with HYPEACH, you're not just buying fashion — you're investing in the future of our Earth. This is just the beginning. We're here to disrupt the fast fashion cycle and create pieces that not only complement your wardrobe but grow with your life. No shortcuts, no empty promises, just consciously crafted clothing that empowers you to express yourself, build community, and protect the planet while doing it. We're not perfect and we don't claim to be. But we are committed to doing better, every step of the way. From the fabrics we choose to the communities we support, every decision is a conscious one. We believe progress matters more than perfection, and that small, intentional choices can lead to big change. At HYPEACH, we're proving that fashion doesn't have to come at the cost of the planet, or your personal style. We're here to show that clothing can be stylish, accessible, and sustainable — all at once. This is more than a drop. HYPEACH is redefining what it means to get dressed in 2025. The new collection arrives May 28, and with it, a new era begins — one rooted in individuality, impact, and intention.

We like our clothes like we like our people: non-toxic. HYPEACH isn't just launching a new collection — we're launching a movement. After two years of intentional development, design, and dedication, HYPEACH is proud to introduce a 43-style collection that's trend-forward, sustainably made, and built to last. Sizing from XS to XL, this range is created with every body and every story in mind. At our core, HYPEACH is about more than clothing — it's a lifestyle. One rooted in self-expression, feel-good fashion, and doing good for the planet. We believe that what you wear should make you feel powerful, seen, and proud — not only because it looks great, but because it was made right. From mindful design to meaningful impact, every decision we make is intentional. We partner with near-shore factories that share our values around sustainability, ethics, and community. These are spaces where quality and positive energy come first — and where the people making your garments are treated with the respect they deserve.

DON'T PANIC IT'S ORGANIC
